Accelerate your Alfresco development using Yeoman

Bindu Wavell
Zia Consulting, Inc.
Chief Architect
@binduwavell

Goal: Increase productivity

- we handle boilerplate and complexity

- we provide CLIs

- you focus on solutions

- less searching (copy/past); more doing

Goals: Familiar and inviting

- starts with the all-in-one archetype
- adds some folders from installer
- a few other useful files/folders
- text based guides
- basic docs inline
- links to full docs

BeeCon 2016

→ projects

Todo

- better test coverage

- better documentation

- enhancements to existing generators

- additional Windows support

- more sub-generators for things like Workflows, Jobs, common Share extension points

BeeCon 2016

Conclusion

- if you use our project, you'll get started quicker and write significantly less boilerplate

- the more help we get, the faster we'll be able to scaffold all of the common extension points
